

## Objectives:

- Pupils will learn how to enter basic commands to make it move or turn in different directions.
- Pupils learn how to enter basic commands to make it draw lines of different length.
- Revise term like clockwise and anti-clockwise
- Learn how to use a ruler to measure lines in cm.

## Resources:

- IWB
  - <https://www.studyladder.com/resources/activity/fullscreen?id=29135>
  - <https://www.studyladder.com/play/activity-new/id/28109>
  - <https://www.studyladder.com/play/activity-new/id/21613>
- A3 sheets
- Pro-Bots
- Pens
- Pro-Bot Worksheets

## Lesson Note:

Introduce the topic by giving them a real-life situation where measuring the length of something . Ask pupils to give further examples.

Ask pupils to name different measuring tools.

Discuss with pupils the units of measurement used for length.

Show pupils how to use the ruler . (Study ladder video/ IWB)

### **Introducing the Pro-Bot:**

Discuss the main features of programmable floor turtles with the children:

- They only do what they are instructed to (follow commands exactly as they are given).
- Compare with wider-world technology devices which need to follow instructions eg remote-sensing devices such as a Mars rover, bomb disposal devices and medical equipment.

Let pupils experiment with the Pro-Bot to make it move and turn in different directions.

Show pupils how to insert a pen into the device to enable it to draw a trail as it moves along a sheet of paper.

In groups pupils work out the 9 tasks in the worksheets.

# Pro-Bot®

1

Press the forward button to draw a straight line.

Estimate the length of this line: \_\_\_\_\_

Measure the line with your ruler: \_\_\_\_\_

2

Programme the Pro-Bot to draw a line of 10cm.

In the space below draw the commands you are going to give to the Pro-Bot

--	--	--	--	--	--

Check the length of the line with your ruler.

3

Programme the Pro-Bot to draw a line of 15cm.

In the space below draw the commands you are going to give to the Pro-Bot

--	--	--	--	--	--

Check the length of the line with your ruler.

# Pro-Bot®

4 Place the Pro-Bot in this position:  
 Draw the button you are going to press to turn the Pro-Bot to the right.

5 If you place the Pro-Bot in this position and you input the following commands:

↑

2

5

the Pro-Bot will draw a :

Vertical line.	
Horizontal line.	

(Tick ✓ the correct answer)

6 If you place the Pro-Bot in this position and you press this command:

↻

the Pro-Bot will make:

a clockwise turn.	
an anti -Clockwise turn.	

(Tick ✓ the correct answer)

# Pro-Bot®

7

Place the Pro-Bot in this position:  
Programme the Pro-Bot to draw a  
**horizontal** line of 12cm.

--	--	--	--

8

Place the Pro-Bot in this position:  
Programme the Pro-Bot to draw a  
vertical line of 15cm.

--	--	--	--

9

Pro-Bots can write too!  
Can you programme the Pro-Bot to write  
the letter L using these measurements?

10cm

7cm

10

Place the Pro-Bot in this position:

Programme the Pro-Bot to write the letter T.

Use the following measurements:

11

Place the Pro-Bot in this position:

Programme the Pro-Bot to write the letter E.

Use the following measurements:

12

## The letter T

How many  
Right Angles does  
the letter T have?

Mark them on the letter  
T drawn by the Pro-Bot.

13

## The letter E

How many  
Right Angles does  
the letter E have?

Mark them on the letter  
E drawn by the Pro-Bot.

14

Programme the Pro-Bot to write the letter F.

How many Right Angles does the letter F have?

Mark them on the letter F drawn by the Pro-Bot.

15

Programme the Pro-Bot to write the letter H.

How many Right Angles does the letter H have?

Mark them on the letter H drawn by the Pro-Bot.

16

Place the Pro-Bot in this position:

Programme the Pro-Bot to write the number 4.

Use the following measurements:

17

Place the Pro-Bot in this position:

Programme the Pro-Bot to write the number 6.

Use the following measurements:

18

Choose one of these numbers and programme the Pro-Bot to write it. Use the given measurements.

We chose to programme the Pro-Bot to write the number:

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
